

Marine Biological Laboratory

WOODS HOLE, MASSACHUSETTS

July 22 1959

Dear Josh :

Your letter of july 12 just arrived and Im sorry for the delay in reply. I've been putting in some time with the bio-astronautics group meeting here as well as getting some of my own work done.

I was glad to hear that you were accepting membership on the Space Sc. Bd. . That should help a great deal towards providing liason with that group and Calvins. I will do nothing more with respect to a purely biological committee unless the need becomes apparent in the future. And I will reply upon your advice as to such future need. At the moment, there is authorization for the Division of Biol. and Ag. of the NRC to establish such a committee if needed.

Your idea of sectional meetings sounds good but I urge that you wait and talk with Calvin about the results of his sessions here before firming up any definite plans.

All goes well with us. Try and stop by either here or Chicago when you can. Our best to you and E_gther

Sincerely

Burr Steinbach
